25X1

A project for the development of a process for casting basalt pipes was given to the East German Office for Water Economy (Amt fuer Wasserwirtschaft) over a year ago. No work was done on this project but recently interest has been renewed, due to [redacted] a process for coating iron with a liquified basalt. Prof. (fnu) Eisenkolb of the Dresden Technische Hochschule, with the cooperation of Dr. (fnu) Bayeradoerfer of the Mescho ceramic plant, has reopened research into these processes.
